

ESTEBAN TOBÓN | Creative Technologist | AI, Web & Creative Prototyping

xbancho@gmail.com | (206) 658-5737 | Columbus, OH | <https://estebantobon.dev>

EXPERIENCE

Creative Technologist, AI Transformation | JPMorganChase

April 2026 – Present | Columbus, OH

- Define and drive AI strategy across the brand and creative organization, evaluating emerging platforms across image, video, text, and audio modalities for enterprise readiness.
- Prototype and produce AI-generated creative assets including video, motion graphics, and imagery using Google Veo 3, Nano Banana 2, Midjourney, and Claude Design.
- Build proof-of-concept workflows, automations, and internal tools with Claude Code and Python that integrate AI directly into live creative pipelines.
- Partner with video, design, and motion teams to embed AI solutions into real production environments, accelerating output and scaling content creation.
- Mentor and upskill creative teams through workshops, demos, and embedded collaboration, translating technical capabilities for non-technical stakeholders.
- Present pilot results and tooling recommendations to senior leadership with clear articulation of creative, operational, and business impact.

Creative Technologist | IT Manager | Blue Phoenix

June 2024 – February 2026 | Remote

- Led technical strategy and creative execution for a health and biotech startup, overseeing web, UX/UI, and SEO.
- Built integrated systems across WordPress, HubSpot, and Klaviyo and developed AI-powered chatbots and internal tools.
- Produced generative video, audio, and design content for branding, social media, and education.

UX Designer | Transblue General Contractors

December 2022 – December 2023 | Hybrid, Seattle, WA

- Designed UX flows, wireframes, and dashboards for internal tools, partnering with the video team on creative campaigns for web and social.
- Built full-stack features using Python, JavaScript, SQL, and REST APIs to support construction workflows.
- Produced visual content and brand assets for marketing, social media, and internal communications.

Digital Designer | Disney

January 2020 – January 2022 | Los Angeles, CA

- Partnered with streaming teams to optimize content delivery and design workflows across global platforms.
- Automated media asset processes using Python and internal tooling, improving production efficiency.
- Ensured cross-platform visual consistency and supported digital storytelling for brand engagement.
